

L'ANCA continue de renforcer ses liens avec les parlementaires US

With over 100 new Senators and Representatives in the 116th Congress, we have an excellent opportunity to educate new legislators about the mutual benefits of a stronger U.S.-Armenia partnership.

Continued progress in bilateral political, economic, security, and military relations will help provide Armenia with viable strategic options in dealing with regional pressures and domestic development challenges.

Check out the progress we have made and over the past decade and support the ANCA's exploration of new opportunities to strengthen U.S.-Armenia ties in the coming days and weeks.
