Armenia Transformed: the need for Innovation, Invention and Entrepreneurship

By Hrachoohi Boghossian

Thursday, July 11, 2019 @ 7:30PM

In the Aram and Anahis D. Boolghoorjian Hall of the Merdinian School: 13330 Riverside Dr. Sherman Oaks, CA 91403

Abstract: The race between technology and education, as labor markets adjust to automation is heating up. In this new world, the ability of workers to compete is handicapped by the poor performance of education systems in most developing countries. Technological change and global competition demand the mastery of competencies and the acquisition of new skills for many. To promote success in today's labor market, the need to invest early, and then invest in the relevant skills and invest smartly, by paying special attention to the innovation, invention, automation, accountability and constant assessment. A country needs to pay attention to teacher training, high technological research and development, early childhood development and culture. This presentation will look into the transformation taking place in the Armenia and its future impact on its development, economy and culture.

Mary-Hrachoohi Boghossian moved to Armenia (January 2015). She is the Founder and CEO of "Center for Innovation Promotion and Research" (CIPR), providing education and training in innovation, creative and design thinking, and entrepreneurship. Hrachoohi is an Adjunct Professor of Innovation and Entrepreneurship at American University of Armenia (AUA), and of Creativity in Public Relations at Department of Journalism, Yerevan State University. Dr. Boghossian earned her PhD in Physics of Magnetic Materials from the University of London, Imperial College, and an MBA in "Innovation and Technology Management" from Rensselaer Polytechnic Institute (RPI), New York. After working Eight years in Magnetic and Superconducting industry, UK and USA, she spent 16 years at NASA/JPL and the Aerospace Corporation, working in Advanced Space Technologies, Advanced Space Missions design and development, Advanced NASA/AirForce Space Studies, where she developed the first cost estimation methodology for Cubesat systems. Hrachoohi has taught in seven universities in the USA, the United Kingdom, and Iraq.

GO TO: <http://www.arpainstitute.org> to donate and/or get more information about ARPA activities.

Please also view the link below and see how you can help ARPA Institute raise more funds. See how you can add to the close to \$20000 that we have raised thus far.

<https://www.goodsearch.com/nonprofit/arpa-institute>

Here is how it works: You can help us by doing some searches on Goodsearch yourself. Just make [Goodsearch.com](http://www.goodsearch.com) your default search engine and do a few searches a day for ARPA Institute (select ARPA Institute as your cause). If 1000 people do one search per day, we can earn close to \$4000 per year. So, please use GOODSEARCH for all your searches and help!
