“Réveillant les vins de Noé” un roman dont les royalties vont aider les petits vigneron

Are you as excited about Armenian wine as we are? You should be! It's ancient, it's complex, it's growing in popularity, and most importantly, it's GOOD. The story of Armenia's wine revival is one for the books, and now you can read it!

Waking Noah's Vines is the latest novel from author Vahan Zanoian, and tells the fictional tale of a group of adventurous vintners from around the world, who set out to revive Armenia's 6,000-year-old winemaking tradition following independence from the Soviet Union. It's an exciting, wine-filled story ripe with history and scandal. Even better: when you buy a copy of *Waking Noah's Vines*, all royalties will go to our [WineCubes of Armenia campaign](#), helping the country's small-scale winemakers create sustainable incomes and driving tourism to their vineyards!

Waking Noah's Vines is available for [Kindle](#) and as [paperback](#) on Amazon right now. Get it for you and your loved ones this holiday season, and support Armenia's small-scale winemakers!
