## **Un don pour l'économie du vin**

With their hard work and hospitality, small-scale winemakers like **Nver and Narine** are revolutionizing rural life in Armenia.

Today is GivingTuesday, and your donations are giving them and their small business, **Momik Wines**, the boost they need to continue going strong in 2020, and launch a second line of wine with a new family, the **Samuelyans**, **led by their daughter Agnessa**.

What does that mean? It means next year, more tourists traveling through Armenia will not just drink local, but experience everything that makes Armenia's vineyards magical: good food, stunning views, warm people, and of course, fine wine. YOU'RE making sure that happens!

This GivingTuesday, and every day of the year, we're thankful to you for believing in the people of Armenia and supporting them through our work!

No matter how much you gave today, you proved once again that great things happen when we come together as ONE. If you have not donated yet, it's never too late!
