

La présence arménienne en Artzakh

This week we look back to a [lecture](#) given a decade ago by George Bournoutian, a historian who has been in the forefront of efforts to combat this abuse of scholarship and to provide accurate documentation of the Armenian presence in Karabagh and counter attempts to falsify history, to corrupt primary sources, and efface Armenians from the history of the region.

["The Historic Armenian Presence in Nagorno-Karabagh: Documentation and Falsification"](#) was presented on May 6, 2010, in memory of Dr. Moorad Mooradian (1936-2009), NAASR Board Member from 1991-2004, in recognition of Mooradian's deep interest in Karabagh's past and present.
