La maternelle d'Aygepar reconstruite (après son bombardement)

Aygepar Kindergarten reconstructed after being shelled

We are pleased to announce the reconstruction on the Aygepar Kindergarten in the Tavush region is now complete! With the quick support of our diasporan communities we were able to survey the damage and begin reconstructing days after the destruction occurred by Azeri forces. As we acknowledge this milestone, we look forward to our continued efforts in this region as we continue to #RebuildTheBorder through our Emergency Reconstruction Fund. Join us as we keep making a positive impact for these brave border communities.
