Relief Fund

Health Comes First

**Help forcibly displaced families
get a healthy start in Armenia**

The Armenians of Artsakh are still healing from the acute physical and emotional stresses sustained for far too long— due to war, blockade, and forced displacement. With your gifts to the **AGBU Global Relief Fund**, patients of all ages can receive quality health care, free of charge, from a full time medical team dedicated to Armenians who have fled from conflict zones to safety in the homeland.

**Please support our efforts to provide for over
8000 patient visits a year, which includes:**

A psychologist specializing
in trauma counseling

A primary care team for a range
of conditions and diseases

Prescriptions
dispensed on site

**Even a small
gift goes far:**

\$100 covers one
annual well visit for
a family of 4.

Please donate generously during
this holiday season of giving.
