## SANS FRONTIÈRES

## Achetons pour aider : ARPA

Le conseil d'administration de l'Institut ARPA exprime sa plus profonde gratitude à tous les partisans de nos initiatives. En 2023, l'ARPA a ajouté deux nouvelles salles au laboratoire national Alikhanyan (Institut de physique) pour les instruments de recherche, modernisé la salle blanche avec 7 gaz, une nouvelle porte et des instruments. 2 nouveaux projets de recherche scientifique et expérimentaux à l'Université d'État d'Erevan et à l'Alikhanyan. Travailler avec STEMar pour former des enseignants pour les expo-sciences et le concours annuel d'invention (voir le dépliant ci-dessous).

S'il vous plaît, pensez toujours à aider l'Arménie.

We SHIP around world.

### PRICING

By now box prices have varied  
in the range of  
**14.000 - 34.000AMD**

Prices are customized based on  
offer - type, quantity, number of  
items included etc.
